

Quarterly Service Prep Sheet

Please follow this preparation sheet to make sure that you are prepared for your quarterly service.

-
1. All children need to be wearing socks, slippers or shoes during treatment. We want our products to be completely dry before anyone walks over them.
 2. If you have fish, you'll need to unplug the pump and cover the tank with a sheet. Cats are not a problem, and dogs should be put in their kennels or outside.
 3. It would be helpful if you could have children and pet toys moved away from baseboards. If you choose not to prepare rooms, we'll just avoid treating areas where toys are present.
 4. Clean any vinyl / wood floors prior to our treatment. After service you can wash your floors, but we ask you to use only water or a Swiffer close to baseboards to help preserve our products until your insect problems are resolved.
 5. If you are having any ant problems on your kitchen or bathroom countertop, we will need you to move all items forward so that we can treat splash guards.
 6. Carpenter ants are most active at dusk, if you have a chance you may want to look around your outside foundation and check the trees on your property, and let your service technician know if you see any activity.

Your service tech will answer any questions you may have pertaining to the insects you are having problems with or the products that he will be using at the time of your service.

Additional Notes:

1. **DISCLAIMER:** Advanced Pest Solutions is at no time responsible for the damage or injury caused by the pests covered by this service.
2. If you have any questions please give our office a call at (563)332-0240.
