

RODENT PREP SHEET

Please follow this sheet to make sure that you are prepared for your rodent service.

___ To the best of your ability, please move items away from the walls in the basement, and away from the foundation of the residence.

___ Do not remove any evidence of rodent activity. Rodent dropping will aid your service technician's ability to determine areas to place rodent control equipment.

___ Be prepared to explain to the technician where you have been seeing/hearing rodent activity at. The more information you give us the better we will be able to help you.

___ A complete inspection inside and outside of your home will be conducted by your service technician prior to trap placement. We will seal all rodent entry points that are ½" or less, excluding gaps under doors & garage doors. Your service technician will point out any areas of the exterior of your home that need to be repaired by a carpenter. Our office has a list of reliable carpenters that have done work for us in the past.

Additional Notes:

1. Although we stand behind all of our services there are too many variables of reintroduction that are out of our control, due to this fact we do not offer warranties on our one time rodent services.
2. After this treatment is performed, you may want to consider our Quarterly insect and rodent control program. Every service is backed by a 90 day warranty.
3. **DISCLAIMER:** Advanced Pest Solutions is at no time responsible for the damage or injury caused by the pests covered by this service.
4. If you have any questions please give our office a call at (563)332-0240.
