

Wasp/Hornet Prep Sheet

Please follow this preparation sheet to make sure that you are prepared for your Wasp/Hornet service.

Our Bee-Hornet-Wasp program is designed to eliminate a known nest of stinging insects. We do not offer a preventative program at this time, but they are covered in our quarterly program.

1. Remove all furniture and other items away from the house.
2. Cover any tables outside or plan on cleaning them after the service.
3. Keep children and pets inside during the service.
4. Walk the house and write down where you saw any nests or activity. The more information you can give us the better we can help solve the issue.

Additional Notes:

1. The warranty starts 3 days after initial treatment for Wasps and 7 days after Initial Treatment for Hornets. Any new or previously undetected nests are not covered by this warranty and an additional charge will be required for that treatment. We will return as often as necessary until the treatment is successful.
2. After this treatment is performed, you may want to consider our Quarterly insect and rodent control program. Every service is backed by a 90 day warranty.
3. **DISCLAIMER:** Advanced Pest Solutions is at no time responsible for the damage or injury caused by the pests covered by this service.
4. If you have any questions please give our office a call at (563)332-0240.
